Welcome to the new Outreach & Recruitment Toolkit Collab space! The Graduate Division is launching this new toolkit to assist campus partners in their outreach and recruitment efforts. We hope it will be a collaborative resource that continues to grow and change as we develop best practices together. Questions about the toolkit can be directed to Edgar Beas at eabeas@ucsd.edu and there is also a Google Form linked below where you can submit additional resources or share ideas for improving this resource.

This is a collaborative toolkit maintained by the Graduate Division for use by all campus partners; please suggest additional resources we should consider adding via this Google Form.
